How to Build Your First Full-Stack MERN App: A Beginner's Guide

DEV Community / 4min

Content: Introduction: ↪ If you're new to full-stack development, the MERN stack is one of the best ways to dive in. MERN stands for MongoDB, Express.js, React.js, and Node.js—a powerful stack for...

My Journey as a Native Android Developer: Focusing on Java,Kotlin and Firebase

DEV Community / 5min

As a native Android developer, I've been diving deep into Java and Kotlin, building scalable apps, and integrating backend services with Firebase. While I haven't worked much with Jetpack yet, I'm focused ...

Building Hounty: Baby steps

DEV Community / 26min

I've been building software for sixteen years. I've built countless websites, mobile apps, backend solutions and quirky side projects. The latter never got as serious as this one and I'm both excited and terrifi

James Laff of Codesmith provides valuable context around core LLM concepts like prompt heuristics and embeddings. This presentation is a companion piece to the Hard Parts of AI Neural Networks course on...

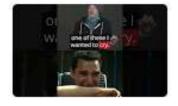

Creating a "Starred" Feed

CSS-Tricks / 3d

Chris wrote about "Likes" pages a long while back. The idea is rather simple: "Like" an item in your RSS reader and display it in a feed of other liked items. The little example Chris made is still really good....
